**HEADING OUT OF TOWN?** We can help - we are dependable and caring companions for your pet while you are out of town. We tailor our visits based on your needs from feeding the gold fish, walking your dog to taking in the mail and watering the plants.

**NO KENNELS!** Because we come to your home your pets won't be exposed to the illnesses of other animals, or have to live in a cage or concrete run. Especially for adopted pets, home care eliminates any fear of being "given away" again, or that you'll never return. Of course your pets will still miss you, but with Dog Gone Walkin' they will always be in a familiar environment where you are assured they are getting love and care they deserve.
